

What We Do

 **Quick Serve**

COD Installations
COD Service

QUICK SERVE INDUSTRY SERVICES

NCS Data Systems has a proven track record of being available whenever and wherever its clients' needs arise, and getting the job done right the first time in less time than most of its competitors.

NCS Data Systems has proven itself superior in the rapid and successful installation of many quick-serve clients, including:

- **McDonald's Restaurants**
- **Culver's Restaurants**
- **Steak & Shake Restaurants**
- **Dairy Queen Restaurants**

NCS Data Systems keeps its engineers and field technicians trained and ready to perform installation and service on the industry's latest releases of OCS displays and systems.

NCS Data Systems utilizes a nationwide network of experienced and professional installers and service technicians to provide the best possible coverage with least amount of down time.

NCS Data Systems can tailor a custom contract to meet your needs to include pre-installation surveys, installation, service, upgrade programs, preventative maintenance cycles and end-of-life replacement plans.

NCS Data Systems takes pride in its personalized customer service approach and ability to react on a moment's notice to resolve crisis customer satisfaction issues. Technical support for its field techs and its clients is available via nationwide toll-free access and across the World Wide Web interface.

NCS Data Systems brings a wealth of knowledge and thirty years of electronic and computer-oriented troubleshooting experience to bear on each and every issue that arises to quickly resolve and return to service its clients' systems.

NCS Data Systems is continuously developing and upgrading its World Wide Web portal so that its clients are able to access real-time information concerning their work-order requests. Its service and installation teams utilize a closed-loop process to monitor and maintain a high degree of both customer satisfaction and technical proficiency.
